Technology,
done properly.
التقنية كما ينبغي.

CyBarq is a technology company in Amman. We build the software, platforms and infrastructure that organisations run on, and we keep them secure. One team, responsible for the whole system.

سايرق شركة تقنية من عمان. نبني البرمجيات والمنصات والبنية التحتية التي تعمل عليها المؤسسات، ونحرص على أن تبقى آمنة. فريق واحد يتحمل مسؤولية النظام كاملاً.

The primary logo is the default for every public application. The corporate lockup, one symbol with English and Arabic, is for formal documents; a stacked version exists for centred layouts. The Jordan legal identity appears only where the registered name is required. Clear space is X, the cap height. Minimum width 24 mm or 88 px.

White is the ground of almost everything; Graphite carries text and the occasional dark application. CyBarq Blue is the primary colour: a flat field on white, and text or a highlight on Graphite. Sky and Ice are its calmer shades for large surfaces and backgrounds. Lime is the secondary colour, always quiet: a pale background or a soft field beside the blue, never a highlight on its own.

Primary CyBarq Blue أزرق سايرق #74C3F2 RGB 116 195 242 CMYK 52 19 0 5	Calm blue Sky سماوي #A9DCF7 RGB 169 220 247 CMYK 32 11 0 3	Blue background Ice ثلجي #DCEFFA RGB 220 239 250 CMYK 12 4 0 2	Secondary Lime ليموني #DCEF9A RGB 220 239 154 CMYK 12 0 42 0	Background Lime tint ليموني فاتح #F1F8D6 RGB 241 248 214 CMYK 5 0 18 0	Text, dark Graphite غرافيت #0D0E13 RGB 13 14 19 CMYK 75 65 55 90	Surfaces Grey رمادي #C6C8CB RGB 198 200 203 CMYK 20 15 12 2	Ground White أبيض #FFFFFF RGB 255 255 255 CMYK 0 0 0 0

Every particle is one blade of the symbol, at its exact proportion and 20.2° apex. Particles sit on a fixed grid, turn with one rotational field and lengthen toward a single ring. A few carry CyBarq Blue. One field per composition, flat colour only; the ring is complete or clearly cropped, never accidentally cut.

The Stream is the pattern in motion: one band of blades crossing a surface from edge to edge, on the same grid and at the same proportion as the Field. From the master it takes five forms. Opening, from a single line into the full band, for openers and hero surfaces. Line, a thin stream for stationery and dividers. Vertical, for portrait covers and the side of a screen. Fine, a dense texture in CyBarq Blue on Ice for footers and backs. Macro, enlarged for event screens and large surfaces. One stream per layout, flat colour, entering and leaving at the edges.

Whitespace first. One logo, one statement, one field. Every graphic element is taken from the symbol: its four blades open to the corners of a panel, and the single blade serves as marker and particle. CyBarq Blue appears as one flat field per layout, at most. Dark applications are contained and flat.

One family for products, services and ideas. A 48 unit grid, one thin line, two to four strokes, no fills, no shading. Graphite on light grounds, white when reversed. Pictograms are drawn on the grid and never scaled unevenly, filled or shadowed.

Gradient

A secondary expression for digital covers, presentation openers, event screens and the front of a card. Blue: Sky #A9DCF7, CyBarq Blue #74C3F2, Azure #2E86CF. Lime: Lime tint, Lime, Deep lime #C5E27A. Both at 158°, never mixed with each other. Flat Ice and Lime tint backgrounds carry the field in CyBarq Blue or Graphite. Never behind body text, never in interface components, never in print stationery.
